

Sociology Web Page

<http://www.dhall813.com>

All your assignments, handouts to read and worksheets can be found here. In addition all power points for each unit can be downloaded. Make sure you use the webpage as *I will not run hard copies for assignments.*

It is your responsibility to read the webpage as download items as assigned. If you do not have access to the internet-you must go to the High School Library or labs to download assignments

In addition your textbook website is linked on the Sociology webpage and has practice quizzes and exercises that I can use for review for tests.

I have read the rules on use of the Sociology webpage.
